Athens 3 April 1988

Dear Ferdinand,

A very Happy Easter to you. I have been most remiss in answering your good letter of last...February. Thank you so much for all the information on Altamura. His father Francesco Saverio Altamura was an Italian painter from Naples and his mother Fleni Boukouri, was the first Greek woman painter from the island of Spetsai...

He was very lucky to have been sent to Copenhagen instead of Munich as our first, Bavarian rulers used to do. I enclose a p.c. of work of his in the National Pinakothek here.

I would love to come to Denmark. The only time I passed through was for a few days to look at the early Graco's you have in the Museum and chez Willumsen and I liked Copenhagen very much. This year of course you are having the ~~the~~ great Council of Europe exhibition about your king Christian.

It was good to hear more of your news from Laurssen who is a pleasant man. He came to our house in the country together with all the other Bernier visitors.

We are going off to Sifnos for our Easter - which is next Sunday and looking forward to a week away from the hectic life of Athens.

With our best regards

Love

Alexander

With the very best regards

Yours ever

A. G. XVDIS
